

International Journal of Women's Dermatology

ABOUT THE JOURNAL

The IJWD publishes articles pertaining to dermatologic medical, surgical and cosmetic issues faced by female patients and their children. We are interested in original research articles, review articles, unusual case reports, new treatments, clinical trials, education, mentorship and viewpoint articles. Very important articles will have accompanying editorials. Topics which our subsection editors look forward to welcoming include acneiform disorders, inflammatory skin conditions, infections, including sexually transmitted diseases, autoimmune conditions, blistering diseases, vitiligo, skin of colour, hair and nail disorders, skin cancers, pregnancy and childbirth, pediatric dermatology, vulvar/genital disorders, psychodermatology, surgical issues, laser/peel/cosmetic procedures, and dermatopathology. Articles dealing with ethical issues in dermatology and medical legal scenarios are also welcome. We aim for rapid peer review from the academic leadership of the WDS as well as experts throughout the world. We will have open access of the accepted peer-reviewed articles even before the final proofs are compiled, allowing the work to be available as soon as possible. We cater to an audience of dermatologists, scientists, educational experts, family practitioners, pediatricians, gynecologists and obstetricians, plastic surgeons, rheumatologists, internists, family physicians and pharmacologists.

ABOUT THE PUBLISHER

Elsevier is a world-leading provider of information solutions that enhance the performance of science, health, and technology professionals, empowering them to make better decisions, deliver better care, and sometimes make groundbreaking discoveries that advance the boundaries of knowledge and human progress. Elsevier provides web-based, digital solutions — among them ScienceDirect, Scopus, Elsevier Research Intelligence and ClinicalKey — and publishes over 2,000 journals, including Journal of the American Academy of Dermatology, Journal of Investigative Dermatology, and more than 33,000 book titles, including a number of iconic reference works. Elsevier is part of RELX Group plc, a world-leading provider of information solutions for professional customers across industries.

GUIDELINES FOR AUTHORS

The International Journal of Women's Dermatology is a refereed journal designed to meet the continuing education needs of Women's Dermatology Society members and the entire dermatologic community. The Journal bases its policies on the guidelines set forth by the International Committee of Medical Journal Editors (www.icmje.org).

Before you begin, please visit www.ijwdonline.org/content/authorinfo and carefully read the information on author's rights, guidelines, and policies regarding article submission. You will also find information on what to do after your article is accepted.

SUBMIT A MANUSCRIPT

To submit a manuscript, visit www.ijwdonline.org and click the "For Authors" tab.

They should be submitted under one of the following sections:

1. Diseases as they apply to female patients
2. Female anatomical and physiological issues relevant to skin
3. Pediatric dermatology
4. Cosmetic Dermatology
5. Procedural Dermatology
6. Therapeutics relevant to women
7. Workforce issues relevant to women in dermatology
8. Ethics
9. Medical-Legal
10. Literary Piece: What's on my mind!

PROVIDING A FORUM RELEVANT TO WOMEN AND FAMILIES

WDS Mission Statement: To be the premier organization cultivating personal and professional development of dermatologists dedicated to excellence in patient care, mentorship, volunteerism, and leadership.

The IJWD will fill a publishing void as the articles will specifically target dermatologic medical, surgical, and cosmetic issues that pertain to women patients and their children. We hope our readership will include not only dermatologists but also plastic surgeons, gynecologists and obstetricians, family physicians, internists, pediatricians, and medical students.

We hope that you enjoy submitting articles to our journal, as well as reading and learning from our contributions. Through rapid expert peer review and open access, we plan to have efficient turnaround and communication of your articles.
